GAGE TVR1A

The GAGE TVR1A is a twin cylinder, reversing steam engine with a 1/2" bore and 5/8" stroke. The crankpins are set at 90 degrees apart so the engine is self-starting at any position of the crankshaft. A Hackworth reversing gear is used to provide the reversing operation and is easily adapted to radio control.

All machining is done and critical assemblies such as the silver-soldered manifolds are pre-assembled. All necessary materials and hardware are supplied. Most of the hardware is stainless steel and the machined parts are made of brass, aluminum and steel. Only a few hand tools are required to assemble this engine. Those include a set of small screwdrivers, needle nose pliers and a small file.

With steam or air operating pressure up to 35 psi, this is a powerful engine for model marine use. After breaking in, the TVR1A makes a good display model, operating reliably at low speeds with under 5 psi of pressure. Included with the kit is a detailed 17 page instruction manual which includes drawings, photographs and detailed assembly instructions.

Quayle MODEL STEAM ENGINE KITS

Easy to build model steam engines

16/16 Series

These simple steam engines are especially aimed towards the modeller who wishes to tackle a project that is not too difficult. They work like the real ones, as they are double acting with slide valve to control steam admission. These are available in vertical, horizontal and reversing twin-cylinder models.

Bore 16mm Stroke 16mm Price : 16/16 V & H \$130.00 16/16 V Twin \$225.50

20/20 series

These are traditionally styled models of slide valve steam engines with cylindrical trunk guides. They can be made on a small metal lathe with a vertical slide for milling. These are available in vertical, horizontal and reversing twin cylinder models.

Bore 20 mm Stroke 20 mm

These kits contain all the materials required to complete the model. Including screws, nuts drawings and comprehensive building instructions.

The twin cylinder engines are ideal for radio controlled model boats.

Price : 20/20 V & H \$178.50 20/20 Twin \$332.25
